## THE HIGHBURY

The Highbury begins a new chapter in Mohammed Bin Rashid City, an area fast becoming an extension of the sociable and all-embracing Downtown Dubai. The vision of the property takes a grand leap to a new level of individuality and aspiration by bringing together two contemporary buildings over 29 storeys set on a garden-strewn podium. The two parts of the building are merged with a seamlessly interconnected plan, separated by their own visual character.

The transition between the connected buildings is visually treated with a stepped facade that culminates in a gradual transcend from ground-level gardens to the upper-level duplex apartments and roof terrace.
